“My son was born with a heart problem. After a party he started bleeding from the mouth. I rushed him to hospital and the specialist said he had 16 loose arteries. He went into a coma, his heart stopped and both of his lungs collapsed. Doctors and specialists expected him to die. At the UCKG I was given some blessed oil to **anoint** my son with. Now that his heart and lungs are better I thank the UCKG for all the spiritual support I received.”
